

# Untitled

<https://github.com/yihui/knitr-examples/blob/master/028-engine-perl.Rmd>

Run perl scripts

```
# should exist  
Sys.which('perl')
```

```
##           perl  
## "/usr/bin/perl"
```

Does perl work?

```
{r test-perl, engine='perl'} #test = "jello world"; #test =~  
s/j/h/; #print $test #
```
